WORK EXPERIENCE

Classora Technologies – Granada, Spain

City: Granada | **Country:** Spain

Backend Python Developer– Cybersecurity Team

[17/10/2023 – Current]

Responsibilities and Achievements:
• Designed and developed internal cybersecurity applications for a large multinational company, applying an API-first approach with OpenAPI specifications and hexagonal architecture to ensure maintainability and scalability.
• Built and integrated solutions with Palo Alto Cortex XSOAR (Demisto) and various cybersecurity APIs, enabling automation of incident response and enrichment processes.
• Developed automation playbooks and workflow integrations in Torq and XSOAR, connecting multiple platforms and services to optimize security operations.
• Acted as Product Owner for several internal applications: defined requirements, managed backlogs, and conducted feature demonstrations to stakeholders.
• Collaborated within an Agile/Scrum environment, following industry standards such as conventional commits, CI/CD pipelines, and secure deployment practices using CyberArk across multiple environments.
• Utilized modern Python tooling, including Poetry and asdf, to ensure reproducible and maintainable development environments.

Cipher | A Prosegur Company – Granada, Spain

City: Granada | **Country:** Spain

Intermediate Tech Cybersecurity

[01/07/2023 – 17/10/2023]

Responsibilities and Achievements:
• Designed and implemented integrations for multiple SIEM and EDR solutions, including Cortex XSOAR (Palo Alto), Elastic Cloud, SCADAfence, and CrowdStrike, ensuring seamless interoperability and data flow.
• Led the development of a SOAR platform with AI-assisted incident response capabilities, enabling automated analysis, alert correlation, and response orchestration.
• Developed RESTful APIs using Django to support platform modules, external system integrations, and data visualization services.
• Built an AI-driven conversational chat interface capable of generating automated reports, visual analytics, and alerts from SOAR data sources.
• Served as the primary engineer responsible for designing and maintaining integrations across diverse SIEM and EDR products, leveraging custom connectors and API-based automation.

DevOps and threat intelligence junior analyst

[20/08/2022 – 01/07/2023]

Responsibilities and Achievements:
• Developed custom actions and functions for the company's SOAR platform (Siemplify) to automate threat investigation and response workflows.
• Created and maintained data synchronization jobs across multiple security platforms and services through extensive use of RESTful APIs.
• Worked with AWS cloud infrastructure, assisting in the deployment and scaling of security and automation services.
• Designed and implemented a web platform using Flask, supporting internal tools and automation processes.

• Applied software development best practices, version control (Git), and continuous integration in daily workflows.
• Collaborated with a multinational team distributed across the USA, LATAM, and EMEA regions, maintaining effective communication and coordination across time zones.

Grupo IWI – Granada, Spain

City: Granada | **Country:** Spain

Systems Administrator Intern

[01/04/2022 – 20/08/2022]

Main activities and responsibilities:
• Assisted in the administration and maintenance of Linux and Windows servers in a production environment.
• Supported daily IT operations, including user management, system monitoring and basic troubleshooting of network and infrastructure issues.
• Collaborated with the systems team to apply updates and improvements to internal services and documentation.

EDUCATION AND TRAINING

Higher Technician in Networked Computer Systems Administration (ASIR)

IES Zaidin Vergeles [19/09/2021 – 20/08/2023]

City: Granada | **Country:** Spain | **Website:** https://www.ieszaidinvergeles.org | **Field(s) of study:** Information and Communication Technologies: ● Information and Communication Technologies (ICTs) not further defined | **Level in EQF:** EQF level 5

Software Engineering

Universidad de Granada [20/09/2017 – Current]

City: Granada | **Country:** Spain | **Website:** https://www.ugr.es | **Field(s) of study:** Information and Communication Technologies: ● Software and applications development and analysis | **Level in EQF:** EQF level 6

Science Bachellor

IES Luis Bueno Crespo [20/09/2015 – 16/08/2017]

City: Granada | **Country:** Spain | **Field(s) of study:** Education: ● Education not further defined | **Level in EQF:** EQF level 4

LANGUAGE SKILLS

Mother tongue(s): Spanish

Other language(s):

English

LISTENING C1 **READING** C1 **WRITING** C1

SPOKEN PRODUCTION B2 **SPOKEN INTERACTION** B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

CERTIFICATIONS

[Microsoft, 21/09/2025]
Microsoft Certified: Azure Fundamentals (AZ-900) Assessed skills:• Description of cloud concepts.• Description of Azure architecture and services.• Description of Azure management and governance.
